Certified Talent Management Professional

Why Attend

- With the rise of the importance of integrated talent management systems, it is crucial that organizations design an effective and holistic talent management system; a system based on the company's strategic directive and integrated with other HR functions and processes. This course is designed to enable HR professionals understand what talent management systems are, shed the light on associated tools and design their own.

Course Methodology

- The majority of the course time will be allocated to workshops. Participants will have the chance to analyze cases, explore and try tools, design competency and assessment frameworks as well as lay the foundation for a talent strategy to be implemented by their company. Participants can bring along their tools and work on analyzing and amending those tools during the course.

Course Objectives

By the end of the course, participants will be able to:

- Design an integrated talent management system in accordance with company strategy
- Develop competency frameworks to serve as the basis for talent review, acquisition, and development
- Use valid tools and techniques to assess the potential of talents
- Train, develop, and coach talents using a wide range of impactful development methods
