Managing Human Capital in the Oil, Gas and Petrochemical Industry

INTRODUCTION

- This innovative training course examines how to master the critical areas of Human Capital Management (HCM) and Human Resources Management (HRM).
- This training course on Managing Human Capital in the Oil, Gas, and Petrochemical Industry will show HR professionals how they can contribute to the business at a strategic level and become a real partner in the organisation. This exciting training course will bring you up to date on the latest techniques and approaches that are appropriate for the efficient management of Human Capital, with particular emphasis on the Oil, Gas, Petrochemical and related industries.

This training course will highlight:

- Best practice in HRM systems, methods, and services
- Training, Learning and Career Development
- Employee Reward and how it influences employee performance
- The importance of two-way resourcing and recruitment
- Performance Management in a multi-cultural environment

OBJECTIVES

By the end of this training course, participants will learn to:

- Explain the importance of strategic human capital management
- Formulate a plan to transform strategic requirements into HR objectives
- Demonstrate an understanding of employee resourcing, recruitment & reward
- Understand performance management in a multi-cultural environment
- Illustrate examples of best practice in managing people

TRAINING METHODOLOGY

- This training course will utilise a variety of proven adult learning techniques to ensure maximum understanding, comprehension and retention of the information presented. This training course on Managing Human Capital in the Oil, Gas, and Petrochemical Industry includes stimulating presentations supporting each of the topics together with interactive trainer lead sessions of discussion.
- There will also be practical sessions where participants have the opportunity to practice and experience course-related activities. Realistic and fun exercises, short video presentations, small group work, case studies, exercises, and feedback, will be used to facilitate learning.
