Strategic Talent Management in the Oil and Gas Industry

INTRODUCTION

- Identifying, developing and retaining your talent has never been more important for the oil and gas industry with the ever changing economic market. An organisations best and most valuable asset is undoubtedly the people; as it's the people who operate the systems, the equipment and who can really make the difference between growth or failure. Losing or not being able to recruit the best talent can have a disastrous impact on an organization's growth and sustainability.
- This highly-interactive Strategic Talent Management in Oil & Gas Industry training seminar will teach you the key talent management processes, systems and procedures in order to apply these in the multi-complex and diverse Oil and Gas industry.
- On this training course, you will gain insight into innovative talent identification methods, develop targeted grading structures, review and develop competency / behavioural frameworks as well as how to grade and assess your talent/high potentials with the effective use of psychometric tools and other assessment methods. In addition, you will define critical development options ensuring the correct development for talent in the organisation. You will also learn how to create sustained growth through active succession planning and strategy in order to ensure positive career paths and development for talent and high potential employees.

The training seminar will highlight:

- Alternative and new perspectives around talent management and high potential identification
