Excellence in Healthcare Management

INTRODUCTION

- The healthcare industry faces a vast array of complicated problems, including staff shortages, rising costs, and increasing government regulations. The healthcare industry is a high-stress, high-risk environment. Luckily, passionate workers have continued to take on the challenges of healthcare with grace and confidence.
- The rapidly evolving nature of technology, information and medical management provides opportunities for employers to contain escalating costs and help manage the quality of care and the total health of employees. This training course will benefit healthcare leaders with knowledge and essential guidance necessary to participate actively in decision making that affects their hospitals/clinics.

Participants attending Excellence in Healthcare Management training course will develop the following competencies:

- Develop their skills in providing an improved service to the patients
- Become a change master who encourages innovative thought and behaviour
- Set the right vision for their team, department and entire hospitals
- Encourage effective decision-making skills in a variety of situations
- Update their knowledge on modern healthcare management and leadership
- Become aware of the latest developments in healthcare accreditation
- Help employees develop effective change management strategies
- Improve the competitive position of their hospital/clinics in the healthcare market

PROGRAMME OBJECTIVES

The objectives of Excellence in Healthcare Management training course are to enhance the healthcare management skills of the hospitals/clinics in terms of organisation, human resources management, strategy tools, risk management, healthcare technology assessment & finance performance management. These include:

- Providing the participants with enhanced skills to manage and administer their hospitals/centres as well as prepare healthcare executives for executing related programs and overseeing improvement projects
- Assisting the participants to acquire advanced skills for organizational success, leadership, effectiveness and efficiency techniques, principles of management, creative problem solving, team building and financial management
- Gaining a better understanding of quality principles & management functions
- Providing training in the development & implementation of strategic planning

WHO SHOULD ATTEND?

The Excellence in Healthcare Management training course is specifically designed for those who seek to create the vision and the action plans of their organization for a better future business in healthcare and keep it safe from any future potential risk, specifically:

- Senior Management Team
- Healthcare Centre Owners
- Healthcare Managers
- Healthcare HR Professionals
- Healthcare Strategic Planners
- Healthcare Departments Heads
- Other Healthcare Professionals

TRAINING METHODOLOGY

- The Excellence in Healthcare Management training course will combine presentations with interactive practical exercises, supported by video materials, activities and case studies. Delegates will be encouraged to participate actively in this unique healthcare management course and discuss the particular needs of their business future.

PROGRAMME SUMMARY

- By the end of this training course on Excellence in Healthcare Management, delegates will be able to manage their hospital or clinics in an organisational manner. Additionally, they will be aware of all related healthcare strategy tools and will gain a better understanding of healthcare quality principles & management functions.
