Pre - Contract Risk Assessment in the Oil & Gas Industry

INTRODUCTION

- Pre-Contract Risk Assessment within the Oil & Gas industry is central. This training course aims to offer a review to common oil and gas contracts with specific emphasis on identifying common contractual pitfalls in light of COVID-19, many contracts had to be negotiated and/or re-negotiated during COVID-19 and so you will enhance your ability to do so in order to mitigate risk through commercial clauses and to increase profitability.
- The training course offers a thorough analysis to the concept of risk management and the various tools in place to mitigate risk, before discussing the general commercial risks associated with placing contracts within the Oil and Gas Industry. The hands-on practical exercises will give you an understanding of the art of negotiations.
- Delegates will understand the components of “the deal”, timing, strategies for gaining the upper hand in negotiations, games opponents play, good vs. bad negotiations and the pitfalls of positional bargaining. After attending this training course, delegates will be better equipped to negotiate profitably with international companies and governments in order to enforceable agreements that contain terms and conditions most productive for their company.

This training course will highlight:

- The interactions of national legal systems in this field and the contractual frameworks
- The impact of COVID-19 on oil and gas business
- Negotiating contracts profitably post COVID-19
- Understanding boilerplate contractual provisions and the risk associated with these
- Arbitration and Alternative Dispute Resolution (ADR) Techniques

OBJECTIVES

- This training course aims to provide an overview of the common boilerplate contractual pitfalls in the oil and gas industry, particularly post COVID-19. You will acquire the fundamentals of international oil and gas agreements, along with negotiation techniques and strategies that work in international and multicultural settings. Delegates will also learn how to effectively negotiate in concert with counsel and how to get the terms negotiated incorporated into an enforceable international oil and gas agreement.

At the end of this training course, you will learn the following:

- Key Players in the International Oil and Gas Industry & the impact of COVID-19
- Negotiation Techniques and the Role of Counsel, especially post COVID-19
- Key Legal Contractual Risk Management Issues
- Managing force majeure clauses
- Analysis of Key Provisions in International Oil & Gas Contracts
- Standard Form Contracts Used in the Industry including internationally AIPN and in the North Sea LOGIC/CRINE
- International Dispute Resolution in the Oil and gas business

TRAINING METHODOLOGY

- This interactive training course will provide the participants an ideal opportunity to improve and sharpen their skill sets in planning and reviewing oil and gas contracts within international standards through interactive session with role playing, case studies, discussion groups and scenario building and the high-point of the training course being a simulation exercise of oil and gas contracts negotiation involving interactive role play by the participants. The objective of the interactive role play is to enable participants to apply the knowledge and understanding gained at the workshop to negotiate a more effective oil and gas contracts. This will help participants gain practical insights into managing the risks and enhancing their rewards.

ORGANISATIONAL IMPACT

- For professionals involved nationally and internationally in the oil and gas industry, this training course offers a unique opportunity to rapidly increase your understanding of the related contracts and to improve your negotiation techniques and skills in drafting a variety of related contracts.

Therefore, your organisation will benefit from this training course by:
