Certificate in Strategy

INTRODUCTION

- This Certification training seminar in Strategy will show you how to provide your organisation with a clear vision and long-term plans that will help it move in that direction. It will take you, step-by-step through a systematic approach to focus on the future; provide a clear vision of where the organisation is going and the route it is going to follow to get there, then track and measure the organisation's progress to achieving it. The whole approach delivers an aligned organisation with every role working together towards the same goal.
- The focus is on how to develop strategic business plans then put them into action. You will discover how to align the organisation with the strategy by engaging with stakeholders, delegating to others, measuring progress, and making tactical adjustments along the way. It also explains effective ways of evaluating how well strategic objectives have been achieved, learning lessons, recognising success and the contributions of individuals.

This Certification training seminar will highlight:

- Principles and Methods of Strategic Management and Business Planning
- Communicating The Plan to Ensure Understanding, Commitment and Accountability
- How to Evaluate and Review Implementation of and Performance against Plan
- The Importance of Creativity and Innovation in Strategic Management
